★★★★★★ Moved me to tears

2 June 2019 | by [punkndrubic7542](#) ~ See all my reviews

The acting in this series especially by the kids/young adults really pulled me in. I haven't gotten this emotional watching anything in a long time. The last episode had me in tears multiple and I hope viewers withhold judgment till they see the whole thing. This is still so relevant 30 years later.

This production, which has been very popular since the introduction process, made an ambitious introduction to Netflix. When They See Us aims to tell an impressive story that has shaken the audience deeply.

The series focuses on the "Central Park Five" incident in 1989. Since many people are aware of this tragic event thanks to this series, the mission that the series takes on is very important. Five blackish youths are unfairly accused of rape in Central Park in 1989. The series, which tells the struggle of these five young people against justice, dates from 1989 to 2002. The series, which reveals a flutter that touches the heart, is not only important because it is based on reality, but also has inferences that shed light on today. When They See Us is very successful in reflecting the tension and drama of young people's struggle for justification. The main reason why emotions are well reflected is the excellent acting performances in the series. Accurate actor preferences help to better reflect the screenplay with an impressive fiction. Episodes ranging from 60 to 80 minutes allow the 23-year process to be followed step by step. A successful cinematography has been applied to ensure that this tense atmosphere is supported visually. Apart from the main characters, there are also successful names in episodes of the series. The series, which has a crowded staff, is becoming one of the productions to be watched thanks to this collective success.

When They See Us reflects a successful example of a genre not so common in Netflix. To see the reflections of a true-life event with its different dimensions in today's world will give the viewers a new perspective. An excellent option for those who want a quality drama. 10/10

Really good biopic, different to what I thought it would be, Taron Egerton was awesome, loved how the songs were integrated in film, give it a go you won't be disappointed!

Rocketman fizzles

2 June 2019

Bravo for the great singing and acting from Taron Egerton. However, the plot was a disappointment. Contrary to the critic reviews such as Rolling Stone, a series of great Elton John songs and fun costumes do not make a movie. I wish they hired some good writers to explore (1) Elton's creative process with Bernie Taupin; (2) develop the characters for his parents; or (3) his four year marriage. By the end I felt like I paid the box office to watch a long advertisement for the 2019 Elton John world tour.
